DETAILED ACTION

Allowable Subject Matter

Claims 11-22 are allowed.

The following is an examiner's statement of reasons for allowance: The closest prior art known to the Examiner is listed on the PTO 892 and IDS forms of record.

The cited references do not anticipate or make obvious performing an ion implant process, implanting nitrogen atoms into the silicon substrate adjacent to the sidewalls; performing a thermal nitridation process, forming a silicon nitride layer on the surface of the sidewalls, wherein the silicon nitride layer includes the silicon nitride formed on the silicon surface by reaction of the silicon surface with the nitrogen atoms therein; removing the remaining dielectric layer from the lower region of the trench; and using the silicon nitride layer as an etching mask, etching the silicon substrate in the lower region, forming an expanded region therein, and forming a bottle-shaped trench consisting of the trench portion in the upper region and the expanded region in the lower portion as required by the presently claimed invention. Therefore, Claims 11-22 are allowable over the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alexander G. Ghyka whose telephone number is (571) 272-1669. The examiner can normally be reached on Monday through Thursday during general business hours.
